-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 22 December 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**Disposition of Claims**

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over "Rules of the game" by the Diagram Group, 2 pages, 1974.

The drawings on two pages of the "Rules of the game" show a track and field arena comprising a multi-lane oval and straightway tracks, high jump, long jump/triple jump, pole vault and shot put stations; the arena comprising an oval track having two turns, at least two straightaway tracks having at least six lanes. It is noted that "Rules of the game" only shows one of each of the listed features above instead of at least two. However, such difference is merely a multiplication of the same part. Accordingly, it would have been a matter of design choice to provide additional elements as listed above for the purpose of accommodating a plurality of events within the track. Also, "Rules of the game" shows, for example, the high jump and the long jump/triple jump are located a distance with each other and they certainly can be used competitively without interfering with the other.

Regarding claim 3, it is noted that the shot put station as shown in the drawing of "Rules of the game" is inside the track instead of outside. However, the amount of stations located within the track is dictated by the size of the track. Accordingly, it would

Art Unit: 3714

have been a matter of design choice to locate the shop put stations outside the track if the size of the track is not sufficient.

Claims 4-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over "Rules of the game" as applied to claim 1 above, and further in view of Schildge, Jr. U.S. Patent 4,802,314.

It is noted that "Rules of the game" failed to specifically teach the track having an arena roof as set forth in these claims. However, Schildge, Jr. teaches an arena having a roof (20) for covering a track or athletic field having the roof having vertical support members outside the track or athletic field as shown in Fig. 2. Therefore, it would have been obvious to one of ordinary skill in the art to modify the track and field arena of "Rules of the game" with the roof as taught by Schildge, Jr. for the purpose of protecting the arena during bad weather.

### ***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 5-17 are rejected under 35 U.S.C. 101 because the claimed invention lacks patentable utility. Claims 5-17 failed to recite any specific method that contain any specific utility, all of the steps as set forth therein are merely abstract ideas of how to conducting a track and field event.

### ***Response to Arguments***

In response to applicant's argument that the claimed invention could be used in a different way, a recitation of the intended use of the claimed invention must result in a

Art Unit: 3714

structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim. In a claim drawn to a process of making, the intended use must result in a manipulative difference as compared to the prior art. See *In re Casey*, 370 F.2d 576, 152 USPQ 235 (CCPA 1967) and *In re Otto*, 312 F.2d 937, 939, 136 USPQ 458, 459 (CCPA 1963).

Applicant's arguments do not comply with 37 CFR 1.111(c) because they do not clearly point out the patentable novelty which he or she thinks the claims present in view of the state of the art disclosed by the references cited or the objections made. Further, they do not show how the amendments avoid such references or objections.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

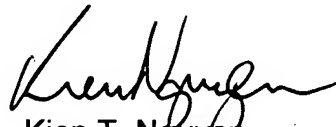

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
